PROFESSIONAL SUMMARY

Enthusiastic and self-motivated Full Stack Developer with hands-on experience in building responsive and scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in frontend development, REST API integration, database management, and modern web technologies. Familiar with Git, Linux, and basic AWS concepts. Passionate about learning new technologies, solving real-world problems, and contributing to innovative development teams. Strong ability to adapt quickly and collaborate effectively in fast-paced environments.

PROJECTS

EV-SERVICE Website | REACT.js, Node.js, Express.js, MongoDB

Developed a responsive EV-Service web application frontend using React.js. Designed interactive and user-friendly UI components for improved user experience. Implemented reusable React components and responsive layouts. Currently developing backend APIs using Node.js and Express.js.

Working on MongoDB Database integration and authentication functionality.
